

SCHOOLBAG COLLECTION 2023

Thanks to modern machinery, skilled and experienced workers, sophisticated production management tools and systems we are the leading producer of ergonomic schoolbags in Europe.

We work with state-of-the-art CNC cutting machines that allow us to minimize waste and maximize productivity.

### Third generation Family business since 1965

The company was founded in 1965 as a family business. In the beginning we made leather belts and later in early 2000 we started a new venture of producing quality schoolbags for children. With our own school bags brand "Belmil", our mission is to create beautiful, safe, innovative and ergonomic schoolbags to school children.

With its own production facilities and warehouses, the company is situated on more than 10,000 m<sup>2</sup> and employs over 200 people.

Our school bag manufacturing department produces ergonomic school bags all year round. In our accessories department we make pencil cases and sports bags for school bags. We work with a range of automatic and semi-automatic sewing machines for perfect end result.
